Executive Summary

The Net4Cities website was launched and brought online in August of 2024 (<https://net4cities.eu>). The website serves as a primary source of public information on the Net4Cities project, including progress updates, access to public deliverables, and descriptions of the consortium, advisory boards, and supporting partners. It will be continuously updated throughout the project as newsworthy events occur, as results become available, and as project-related information relevant to the public arises.

Project Website

The Net4Cities website can be found at <https://net4cities.eu>. It was brought online on August 9th, 2024. The general structure of the website is as follows and can be seen in Figure 1.
